

We Fly (c)2021 Lyrics by Henning Sauer Music by Henning Sauer & Bernd Arera

We went threw or lifes
without worries
nothing to say - and nothing to see
we were healthy and in good faith
always a smile in our face.

But then the clouds came up
and the rain pelted down
deep in the mud
yellow and brown
whre is the lightness
security

where is the brightness
that makes it easily...

We fly we fly
sailing across the sea
we fly we fly
acended to heaven

But now we take wings
and soar into the sky
towards to the sun
we can fly.

Like the heroes
who stay forever
together since the past.

We set our course
for our goal
the way is our destiny
wherever we'll be
whoever we'll be
we'll be together...
We fly we fly
sailing across the sea
we fly we fly
ascended to heaven
we fly we fly
sailing across the sea
we fly we fly
to where we want to be...
