

Christmas Night (T-M: Henning Sauer 2021)

Im walking down the street
im feeling fine - its christmas time.
Maybe I can find some gifts?
Or go for a wine? Have a good time

Know your fears
saw your tears
your heart was broken
after all these years

The shops are already closed ...
a bit of snow and sadness remained.
We could see it coming along
but everything was in vain.

there was hope again
she gave you love
and opened your heart ...
to make a new start

Standing here
alone again
under the moonlight
on this winter night

on
Christmas night...

I'll wait here
to see you again
next to the candlelight
on Christmas night ...

Christmas night...

My shoes are damp and cold
but my heart is still warm
filled with your love ...

On the opposite side of the road
sits a beggar - and
I give him some wine ...

Then he grabs my sleeve asking me:
„Please wait for a while, you still have
time.

I know your face - saw your eyes
a long time ago – when you've lost
your way.“
